## Summary

---

Frontend Developer with 2+ years of production experience, specializing in Vue.js and Nuxt.js. Experienced across the full delivery cycle — from UI development and API integration to backend work in Go and production deployments with Nginx, CI/CD, and SSL. Comfortable owning features end-to-end in fast-moving SaaS teams.

## Experience

---

**Vue.js Developer**, 2ROOMZ / DGStay June 2025 – Present

- Frontend development and feature implementation for a Hotel Management SaaS platform serving 600+ clients
- Integrated real-time features using WebSocket (Centrifugo) for live task and notification updates
- Worked across Vue 2 and Vue 3 codebases, managing state with Vuex and Pinia
- Contributed to cross-platform product split (2ROOMZ for RU segment, DGStay for EU/UK) on shared codebase
- Collaborated with Laravel backend team on API integration and bug resolution

**Full-Stack Developer**, Sekta AI January 2026 – Present

- Built and deployed an AI-powered hair styling recommendation app (Vue.js frontend, Go backend)
- Integrated Gemini 2.5 Flash API with modular prompt architecture for personalized hair analysis
- Deployed Go backend to production on Ubuntu (Selectel VPS) with Nginx reverse proxy, Let's Encrypt SSL, and systemd service management
- Set up CI/CD pipeline via GitHub Actions for automated deployment

**Developer & Systems Administrator**, NamDTU, Namangan Sept 2024 – June 2025

- Developed and maintained multiple institutional websites for the university
- Integrated frontend interfaces with Hemis API for student data management
- Provided technical support and system administration for internal IT infrastructure
- Collaborated with staff to gather requirements and deliver web solutions

**Vue.js Developer**, Teamly – Fergana, UZ Jan 2023 – March 2024

- Built and optimized Vue.js applications in collaboration with UX/UI designers
- Managed application state with Pinia, reducing unnecessary API calls
- Integrated Firebase (Firestore, Realtime Database) for data storage and real-time sync

## Projects

---

**quvna.com** quvna.com

- E-commerce platform with live streaming, Steam payment integration, and social engagement features
- Implemented Google OAuth and full authentication flow
- Tools Used: Vue 3, TypeScript, Pinia, Tailwind CSS, REST API

**nuriddinov.uz** nuriddinov.uz

- Personal portfolio site deployed on Netlify with custom domain
- Tools Used: Vue 3, Nuxt.js, TailwindCSS

## Technologies

---

**Frontend:** Vue.js (2/3), Nuxt.js, JavaScript, TypeScript, Pinia, Vuex, TailwindCSS, CSS, PrimeVue

**Backend & Databases:** Go, Firebase (Firestore, Realtime Database), Supabase, REST API

**DevOps & Tools:** Nginx, Linux (Ubuntu), systemd, Let's Encrypt SSL, GitHub Actions (CI/CD), Docker (basics), Git

## Education

---

Tashkent University of Information Technologies, BS in Software Engineering

Sept 2020 – July 2024

- GPA: 4.45/5.0

## Languages

---

**Uzbek:** Native

**English:** Intermediate (B2)
